**Murphy's Slix Black
Lube**

Product Data Sheet

Description:

Murphy's Slix Black Lube is a soft, non-water dispersible paste. It is a stable blend of vegetable oil, soaps, surfactants, and water and is excellent for use in all types of tire mounting systems. It tested safe for use on most common rubber materials. Stops the bonding or freezing of tire beads to tire rims and allows for easy, damage free removal of tires. Ideal for all-terrain and large commercial tires.

Features:

- Non-Water Dispersible
- Stable from -20 to 110°F
- No Objectionable Odor
- Non-Toxic
- Will Not Support Bacterial Growth
- Contains No Phosphates
- Contains No Petroleum Oils
